HIGH-YIELD BPT STUDY GUIDE & EXAM COMPANION

Human Anatomy

Author: Dr. MD Kamran Alam | Instagram: @restore_healthphysio

OFFICIAL DIGITAL STUDY GUIDE VERIFICATION

Format: High-Yield Digital PDF | Standard Price: Rs. 99

Authorized License: Personal Single-User Academic License

STUDY GUIDE DETAILS & CONTENTS:

Comprehensive high-yield notes designed for Bachelor of Physiotherapy (BPT), MBBS, BDS, and allied healthcare students. Covers fundamental anatomy, clinical assessments, pathological conditions, evidence-based physical therapy rehabilitation protocols, and exam-oriented high-yield review.

KEY HIGHLIGHTS:

- Exam-Focused: Concise points curated from leading medical textbooks and clinical references.
- Visual Diagrams: High-yield diagrams and tables for quick revision.
- Mobile & Tablet Optimized: Readable on phones, tablets, iPads, and laptops.
- Official Medicos Minds Release: Verified by Dr. MD Kamran Alam.

INDEX

1. General Anatomy
   - 1.1 Introduction to Anatomy
   - 1.2 Anatomical Position
   - 1.3 Anatomical Planes
   - 1.4 Terms of Movement
   - 1.5 Directional Terms
   - 1.6 Bones - Classification
   - 1.7 Joints - Classification
   - 1.8 Muscles - Classification
   - 1.9 Fascia
   - 1.10 Skin & Glands

2. Cell & Tissue
   - 2.1 Cell
     - 2.1.1 Introduction to Cell
     - 2.1.2 Structure of Cell
     - 2.1.3 Cell Organelles
     - 2.1.4 Cell Division
   - 2.2 Tissue
     - 2.2.1 Introduction to Tissue
     - 2.2.2 Classification of Tissue
     - 2.2.3 Epithelial Tissue
     - 2.2.4 Connective Tissue
     - 2.2.5 Muscular Tissue
     - 2.2.6 Nervous Tissue
     - 2.2.7 Blood
     - 2.2.8 Bone & Cartilage

3. Osteology - Bones
   - 3.1 Upper Limb Bones
   - 3.2 Lower Limb Bones
   - 3.3 Vertebral Column
   - 3.4 Skull
   - 3.5 Ribs & Sternum
   - 3.6 Pelvis

4. Upper Limb Anatomy
   - 4.1 Shoulder Region
   - 4.2 Arm
   - 4.3 Forearm
   - 4.4 Hand
   - 4.5 Axilla
   - 4.6 Brachial Plexus
   - 4.7 Major Muscles
   - 4.8 Arteries & Veins
   - 4.9 Nerves
   - 4.10 Joints & Movements

5. Lower Limb Anatomy
   - 5.1 Gluteal Region
   - 5.2 Thigh
   - 5.3 Leg
   - 5.4 Foot
   - 5.5 Femoral Triangle
   - 5.6 Sciatic Nerve
   - 5.7 Lumbosacral Plexus
   - 5.8 Major Muscles
   - 5.9 Arteries & Veins
   - 5.10 Nerves
   - 5.11 Joints & Movements

6. Head & Neck
   - 6.1 Skull
   - 6.2 Scalp & Face
   - 6.3 Cranial Nerves
   - 6.4 Neck Muscles
   - 6.5 Pharynx
   - 6.6 Larynx
   - 6.7 Eye
   - 6.8 Ear
   - 6.9 Oral Cavity

7. Thorax
   - 7.1 Thoracic Cage
   - 7.2 Heart
   - 7.3 Lungs
   - 7.4 Pleura
   - 7.5 Mediastinum
   - 7.6 Diaphragm
   - 7.7 Intercostal Muscles

8. Abdomen & Pelvis
   - 8.1 Abdominal Wall
   - 8.2 Stomach
   - 8.3 Liver
   - 8.4 Pancreas
   - 8.5 Intestines
   - 8.6 Kidneys
   - 8.7 Urinary Bladder
   - 8.8 Pelvic Organs
   - 8.9 Perineum

9. Neuroanatomy
   - 9.1 Central Nervous System (CNS)
   - 9.2 Brain
   - 9.3 Cerebrum
   - 9.4 Cerebellum
   - 9.5 Brainstem
   - 9.6 Spinal Cord
   - 9.7 Meninges
   - 9.8 Ventricles & CSF
   - 9.9 Cranial Nerves
   - 9.10 Peripheral Nerves
   - 9.11 Autonomic Nervous System
   - 9.12 Ascending Tracts
   - 9.13 Descending Tracts

10. Histology
    - 10.1 Epithelial Tissue
    - 10.2 Connective Tissue
    - 10.3 Muscular Tissue
    - 10.4 Nervous Tissue
    - 10.5 Blood
    - 10.6 Bone
    - 10.7 Cartilage

11. Embryology
    - 11.1 Gametogenesis
    - 11.2 Fertilization
    - 11.3 Development of Embryo
    - 11.4 Development of Major Systems
    - 11.5 Congenital Anomalies

3.1 UPPER LIMB BONES (Contd.) :-

C. Forearm (Contd.) :-

1) Radius (Contd.) :-

Important Parts (Contd.) :-

f) Head
g) Neck
h) Radial tuberosity
i) Shaft
j) Styloid process

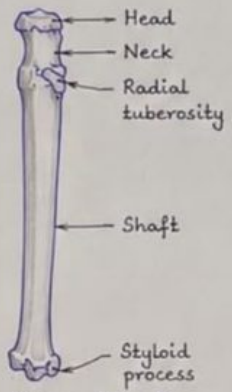

Fig. : Radius (Right)
Posterior View

2) Ulna :- (Medial bone)

- Lies on the medial side of forearm.
- Broad at upper end and narrow at lower end.
- Forms prominent part of elbow joint.
- Helps in flexion and extension of forearm.
- Important Parts :-
  a) Olecranon process
  b) Coronoid process
  c) Trochlear notch
  d) Radial notch
  e) Shaft
  f) Styloid process

Fig. : Ulna (Right)
Anterior View

Important Features of Ulna :-

- Olecranon process forms the point of elbow.
- Coronoid process gives attachment to muscles.
- Trochlear notch articulates with humerus.
- Radial notch articulates with head of radius.

Fig. : Upper end of Ulna (Right)
Anterior View

3) Interosseous Membrane :-

- A tough fibrous membrane.
- Extends between radius and ulna.
- Keeps the two bones together.
- Allows some movement but provides stability.

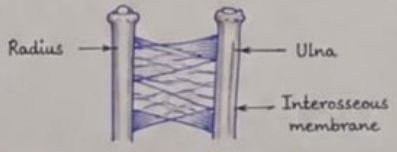

Fig. : Radius and Ulna (Right)
Anterior View

D. Hand :-

- Consists of bones of wrist, palm and fingers.
- Total 27 bones – 8 Carpals, 5 Metacarpals, 14 Phalanges.

1) Carpals (Wrist Bones) :-

- Eight small bones arranged in two rows.
- They form the wrist joint.
- Important for flexibility and movement of hand.
- Names of Carpals :-

Proximal Row (Lateral → Medial)

a) Scaphoid b) Lunate c) Triquetrum d) Pisiform

Distal Row (Lateral → Medial)

e) Trapezium f) Trapezoid g) Capitate h) Hamate

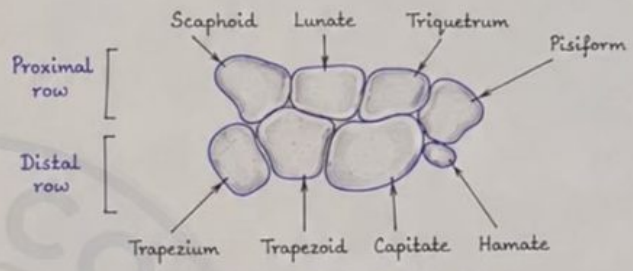

Fig. : Carpals of Right Hand
(Top View)

2) Metacarpals (Palm Bones) :-

- Five long bones numbered I to V from thumb to little finger.
- Lie between carpals and phalanges.
- They form the framework of palm.
- Each has – Base, Shaft and Head.

Fig. : Metacarpal Bones (Right Hand)
(Anterior View)

3) Phalanges (Finger Bones) :-

- Fourteen bones in fingers.
- Each finger (except thumb) has 3 phalanges – Proximal, Middle and Distal.
- Thumb has 2 phalanges – Proximal and Distal.
- They are small, long bones.
- Help in fine movements and grasping.

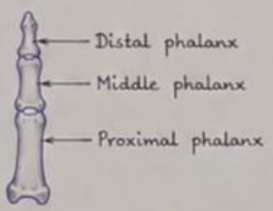

Fig. : Phalanges of Index Finger
(Right Hand)
(Anterior View)
